

# The Manhattan Code

*The Da Vinci Code* helped to uncover secrets in Paris, London and beyond. Here in New York, some of the city's biggest mysteries are hidden by *The Manhattan Code*.

Equipped with a map, tools, and a list of clues, groups will race against time (and each other) to decipher codes, unlock the cryptex and solve the ultimate puzzle.

## Sample Clue:

*If you can't find the next clue soon, don't despair,  
This duo isn't going anywhere.  
On guard since 1911 they've stood their ground,  
Overseeing an historic site and keeping voices down.*

"Challenging—but that's what made it so fun!"

"Good perspective for someone who *thought* they knew everything about New York."

"LOVED IT! A great experience."
